

social distancing guidelines

Dawson Women,

The health and safety of everyone is very important to us and gathering together, in person, at this time involves intentionality and sensitivity towards others. Please ENCOURAGE ONE ANOTHER in love through these best practices.

1. Expectations: Prior to gathering, people will want to know what to expect. Please communicate with your group so that people aren't surprised by any precautions or perceived lack thereof.
2. Gathering: Please comply with current CDC guidelines, specifically in terms of proper social-distancing, wearing masks, hand washing and sanitizing meeting space before and after gathering.
3. Childcare: Potential opportunities for childcare are available if gathering on campus during the week. Please contact Dawson Women's Ministry staff if you would like to discuss this option.
